

# HOW TO CREATE A VISION BOARD

## GATHER THE SUPPLIES TO MAKE YOUR VISION BOARD

Firstly, decide if you will make a physical or digital vision board.

Next, gather pictures that symbolize your goals and trigger the emotional responses. If you are making a physical vision board you will want to print them or use printed photos or images. If you are making a digital board then collect them in a folder on your PC. Our free vision board maker will give you access to a gallery with millions of images.

Make sure you have an emotional connection to every image you use.

If you are making a physical vision board then find a base for your board (cardboard, cork, etc.), scissors and glue. You can also use colored markers and stickers to embellish it. Check out our free vision board stickers that you can print and use.

## MAKE YOUR VISION BOARD

### **To make a physical vision board:**

- Lay out your pictures on your base.
- Add affirmations, words and/or quotes.
- Add the vision board stickers.

### **To make a digital vision board:**

- Open the online vision board maker.
- Select a template.
- Upload your images.
- Add affirmations, words and/or quotes.

## LOOK AT YOUR VISION BOARD DAILY

Put your vision board somewhere where you will see it daily. Keep trying to visualize your goals and allow yourself to feel the emotions they trigger. This will motivate you to reach your goals.

If possible, look at it before you go to bed and first thing in the morning. Ideally, it should be motivating enough to help you want to get out of bed in the morning and start your day.

# TAKE ACTION

List the actions that you can take to reach each of your goals. Set reminders on your phone to follow up on the deadlines you set.
