# Setting Up the Marshmallow Bath in the Bathroom:

## Creating the Scene:

- 1. Select a Small Container:** Find a small, shallow container or bowl that can safely sit on a bathroom surface. This will serve as the Elf's bathtub.
- 2. Fill with Mini Marshmallows:** Fill the container with mini marshmallows to mimic a bubble bath.
- 3. Position the Elf:** Carefully place your Elf in its marshmallow bath. Arrange it so it looks like it's enjoying a relaxing soak.
- 4. Add Bath Accessories:** Include a tiny towel (a piece of cloth or a small washcloth) and a small toy rubber duck to complete the bath scene.

## Displaying the Scene:

- Set up this whimsical scene on a bathroom counter, shelf, or another safe spot in the bathroom where it can be easily seen during the kids' bathtime.
- Ensure the setup is stable and won't accidentally fall into water or be in the way of bathroom use.
